Hello Evan - The Bondad Solid Waste Landfill continues to be acceptable pursuant to the CERCLA Off-Site Rule. Here's the newest verification of continued acceptability(VCA):

The OSR acceptability status is dynamic in nature and subject to change, Region 8 has instituted a policy where EPA conducts a verification of continued acceptability (VCA) on facilities that have been previously found acceptable under the CERCLA Off-site Rule (OSR) such as the Bondad Landfill facility located near Durango, Colorado. The purpose of a VCA is to provide a periodic check to assure that the facility continues to be acceptable. VCAs are conducted when a request for OSR status is received and the previous VCA had been conducted more than 60 days prior. VCA are valid for 60-days.

A VCA was completed for the Bondad Landfill facility on September 8, 2015, so the VCA is valid until November 8, 2015. CERCLA waste shipments sent to the Bondad Landfill facility up until November 8th, are in full compliance with the OSR. If CERCLA wastes are planned to be sent after this date, please submit a request for a new VCA about a week or so prior to November 8th, so that a new VCA can be conducted at that time. Thanks.

Subject: CERCLA OSR check

Hi Terry,

I need to check the CERCLA status of the following landfill for disposal of 20-40 CYs of non-haz sediment from the Region 8 Gold King Mine Release site. Please let me know if they are acceptable for the receipt of CERCLA waste.

Waste Corp of America (WCA)  
Bondad Landfill  
1500 CR 318  
Durango, CO 81301

Thanks,

Evan Wortman, CHMM
